

## Print from your BlackBerry to any PC's Printer!

**Why Tazzle?** The revolutionary, yet simple Tazzle™ IT turns any PC and its printer into an easy-to-access peripheral for your BlackBerry® smartphone. Just insert Tazzle IT into the USB port of any PC running our software to create an instant secure, wireless connection. Now you can view, print, and send your email content, attachments, photos, and files from your BlackBerry directly to a computer and its printer within a 30-foot radius. For example, an email arrives on your BlackBerry, and with a single click on the menu, it immediately opens to view as a DOC on the PC screen. Or send it straight to the printer, even if there is no internet connection. Send your photos to automatically open for viewing on the PC's larger screen. Save them if you wish. Transfer any JPEG, PDF, DOC, spreadsheet, PPT, etc. with a single click! Using our free macros, control a PC PowerPoint presentation from your handheld!

**Here's how it works:** The Tazzle IT requires no network access, subscription, or cables; all you need is the Tazzle IT device and its unique software. Setup is easy and secure, unlike standard Bluetooth, and much simpler and more secure than email. With Tazzle IT, you send files directly from your BlackBerry to a PC. Tazzle IT eliminates the hassles of fumbling with cables, microSD cards, WiFi network configuration or synchronization software.

Tazzle IT's proprietary hardware and software provide maximum security and control in any environment. The secure one-way "push" technology prevents unauthorized access to PC files and protects BlackBerry data. As Tazzle IT consumes almost no power, you can keep it in your PC or laptop USB port with no worries about overheating or battery consumption.

**How to use Tazzle IT:** One-time pairing & setup in just three easy steps:

1. Download and install the Tazzle App for BlackBerry and the Tazzle Desktop software for PC.
2. Securely pair Tazzle IT from your BlackBerry using Bluetooth. You only need to do this easy 10-second pairing once.
3. Choose "View", "Print", or "Save" on the Tazzle Desktop software for PC, and start Tazzle-ing!

**How to Tazzle after pairing:** Insert Tazzle IT into USB port, choose "View", "Print", or "Save" on the Tazzle Desktop software for PC, and start Tazzle-ing!

Carry your Tazzle IT wherever you go to print, view and send your important data securely to any PC running Tazzle software. No additional pairing needed! And don't worry: because unlike a USB Flash Memory Key, your data is never compromised even if you lose your Tazzle IT!

- **Save Time!** Quickly send docs straight from your BlackBerry to print to any PC's printer!
- **Unique "Portable" Secure Pairing:** Once your Tazzle IT is paired to your handheld you can *use it on any PC* running Tazzle software!
- **"Tazzle It!" BlackBerry Menus:** Tazzle IT features are easily available within BlackBerry menus and the Tazzle App.
- **Exactly What You Want NOW From Your BlackBerry;** No need to synch data or download attachments: Tazzle just the files YOU select.
- **One Click Sets PC Receive Mode:** Select "View", "Print", or "Save" on the PC to automatically handle arriving files!
- **Maintain Total Control:** *Tazzle* only the files and data you select from your handheld with complete privacy.
- **Secure Sharing:** Tazzle-sent files are automatically deleted from the receiving PC -- unless **you** choose to save them.
- **Tazzle Anywhere, Anytime:** No network access required to *Tazzle* whatever is on your handheld.
- **No Fear of Data Loss:** Even if Tazzle IT is lost, your data is safe!
